

Take Off to Heaven!

Plot (Parcela): No.9

Festival Internacional de Xardins Allariz 2018

Concept The goal of this garden is take visitor to "HEAVEN"! o "Subir al cielo!"

Eroticism is vital in our life. People enjoy it in many ways and each one has own taste. Even each one has likes and dislikes of it, but I want to make every visitor to be happy in my garden! So, we all want to reach (llegar) the same destination, where we call "the heaven (el cielo)".

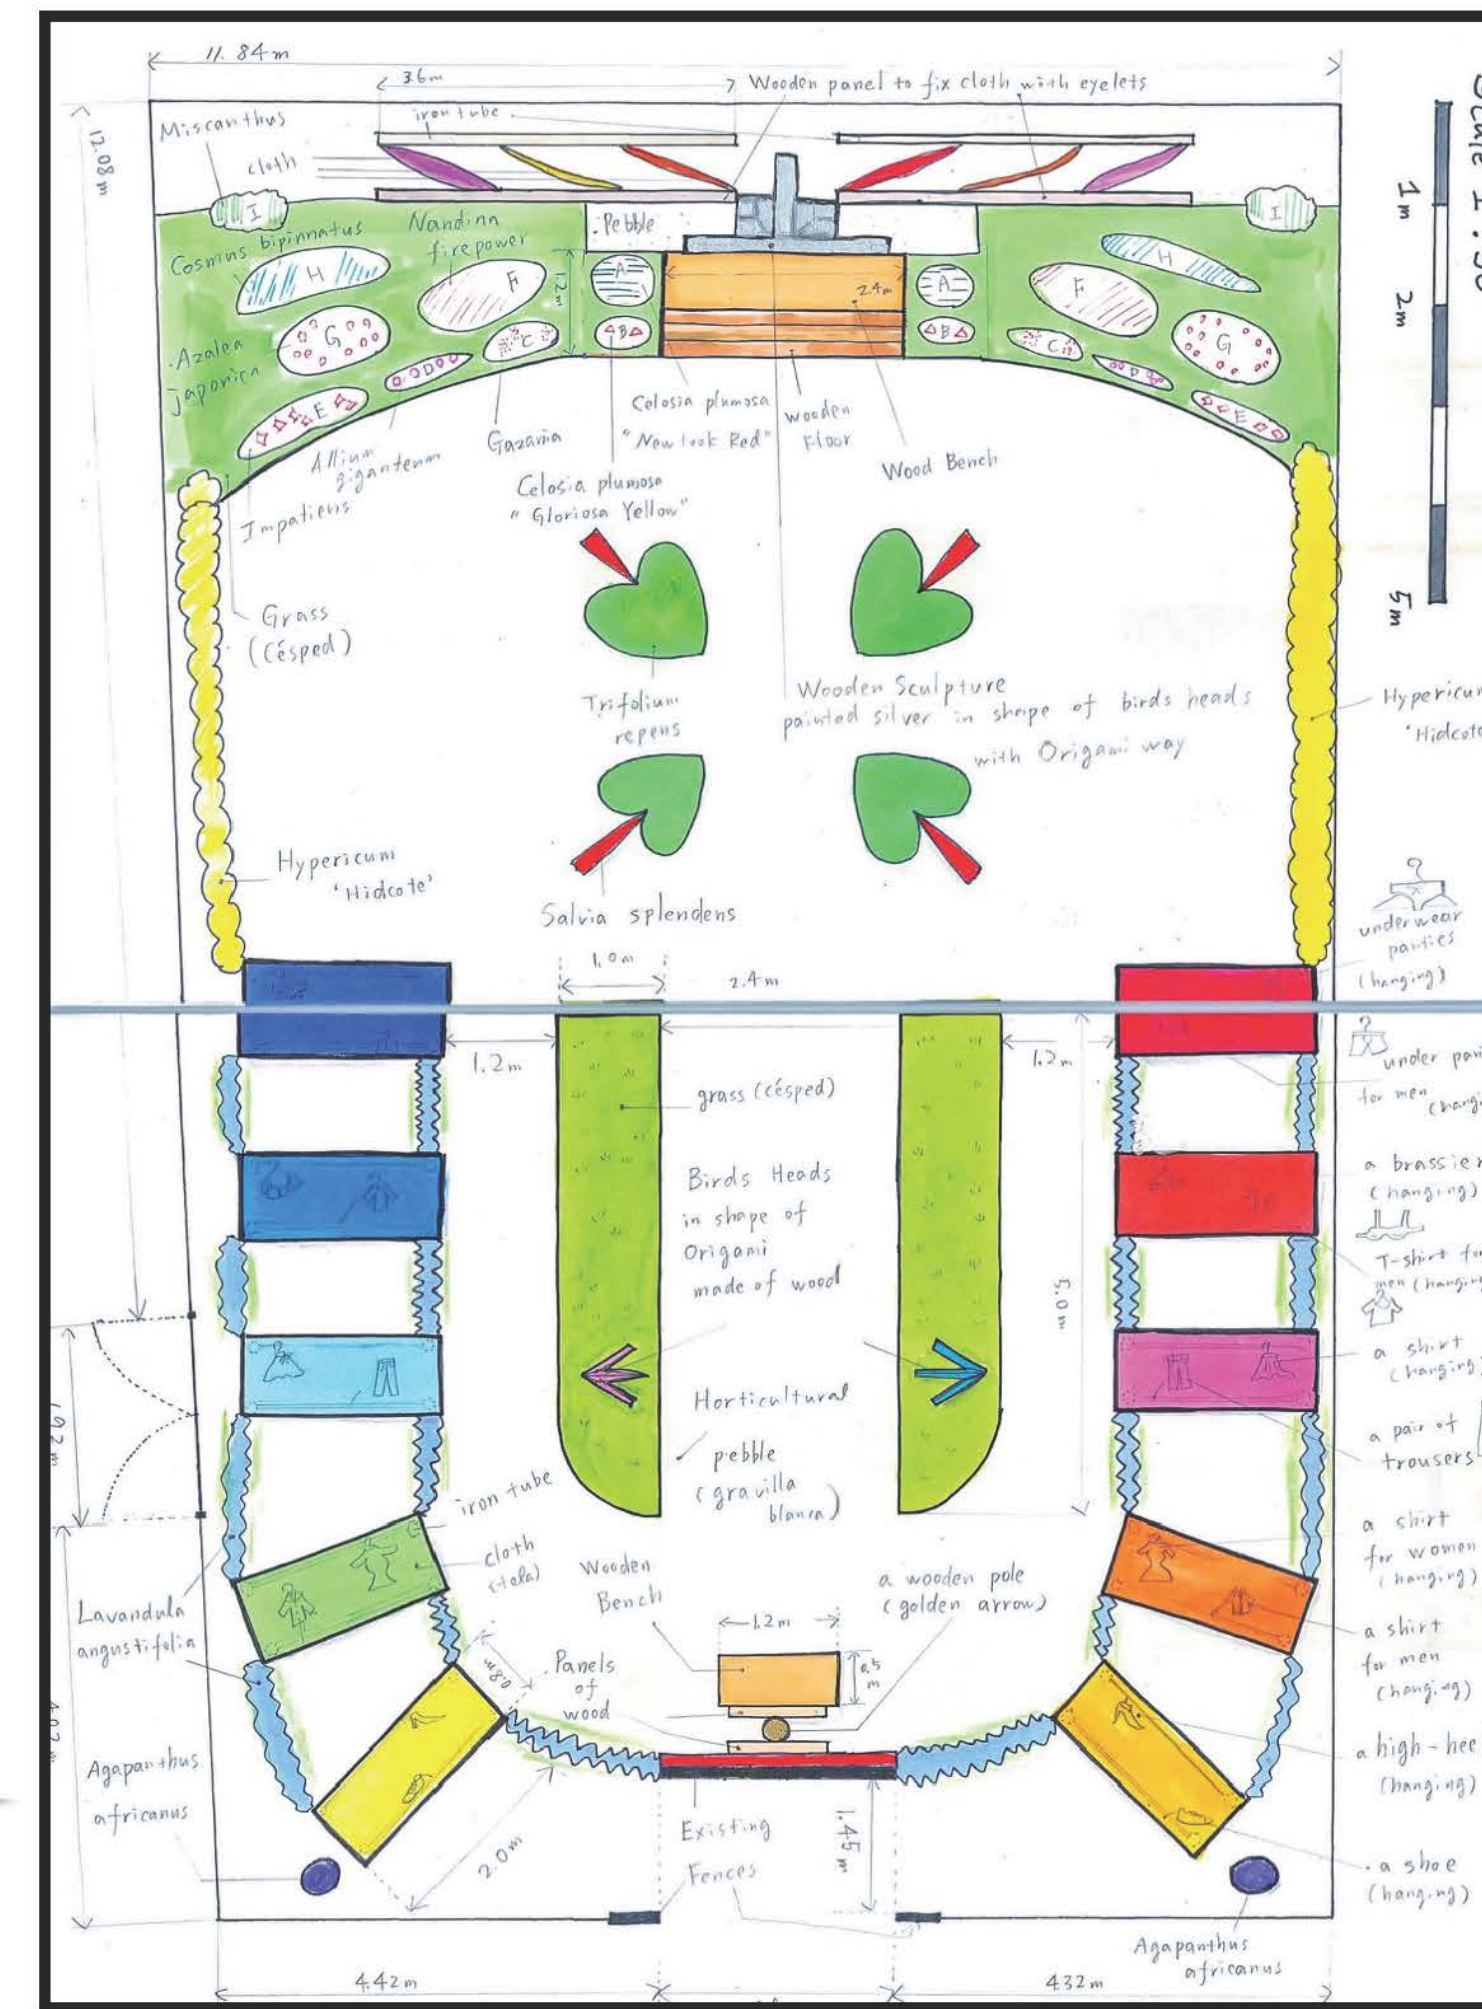

How.... All we have to do is "take off" the earth just like a bird! We are too heavy to fly up as we are...So "take off" every unnecessary thing with clothes what make us "wear". Then, open our bodies and minds just like dancing until we hear only the sounds of heartbeats.

"Wait a minute!", "We are not allowed to be naked in the public garden!" "We don't have wings like birds"

Yes, you are all right. That why I projected this garden with the help of the Greek god, Eros. He is called "Cupid" or "Amor" in Roman mythology.

Cupid is busy. But he is very happy to know that Allariz Town Council chose "him (eroticism)" for the theme of 2018 edition. So he is willing to rend his spare "bow and arrow" for this special garden festival! Cupid says just one condition, "Take off the science, Bring back fantasies and imagination!" Now let's enter this formal garden composed of six parts as below. As visitors stroll, a story evolves and can enjoy metaphors in meanings and shapes designed to take off to the Heaven!

1: Entrance gate (Exit), 2: Tunnel of wings, 3: Parterre de Heartbeats, 4: Flower bed, 5: Flapping united birds, 6: Lovers' chair
